

# iDFS CDMA Professional CDMA Software for Apple devices

## **iDFS Tool flash Cricket Wireless**

Flash the iPhone 4\iPad 2 carrier Cricket Wireless is easy!

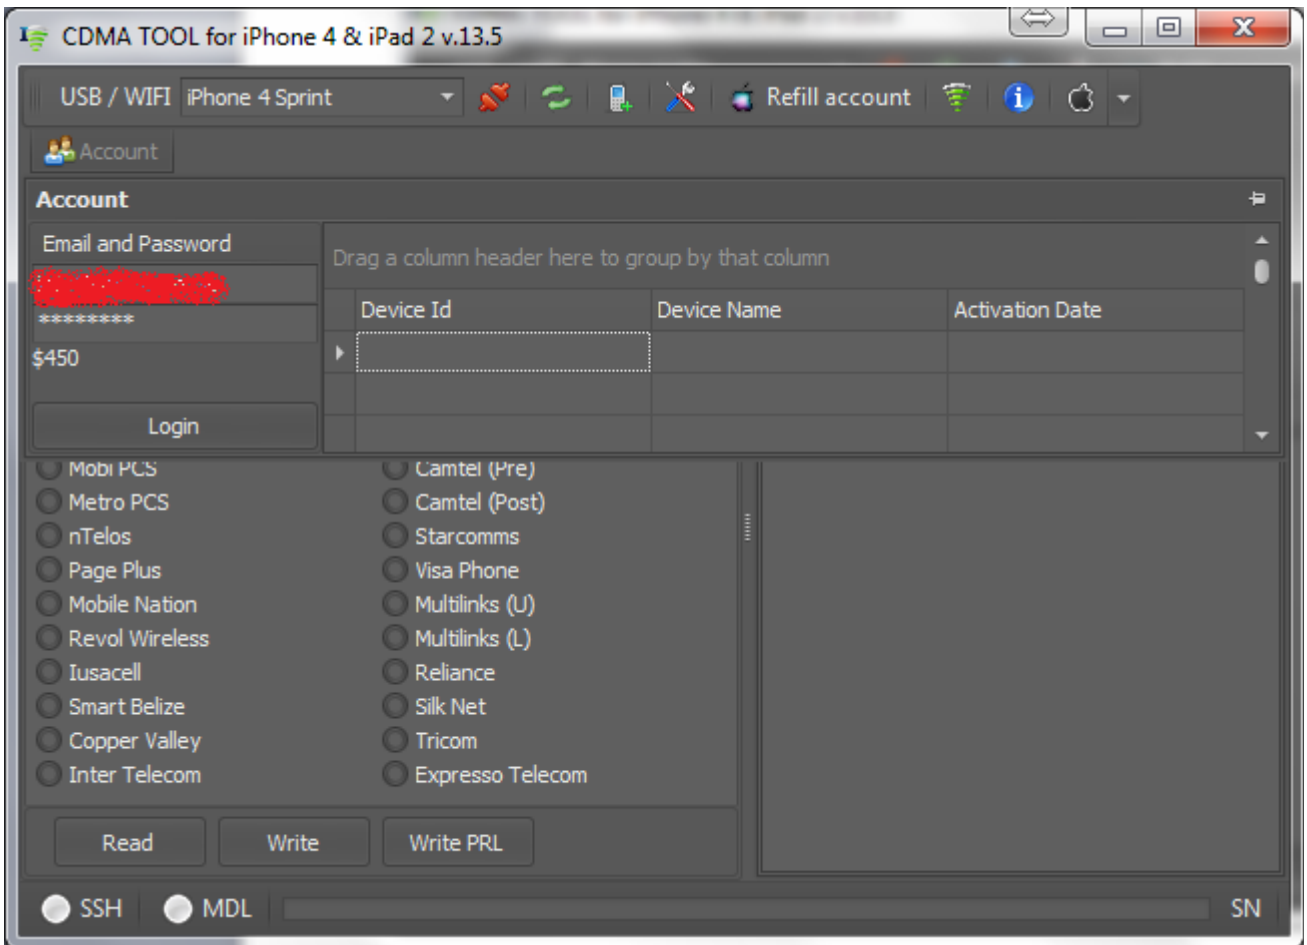

### **What do you need to have before flashing:**

1. iPhone 4 CDMA or iPad 2 CDMA
2. Original Apple USB cable
3. **iTunes** installed
4. Device has to be **JailBroken**
5. **OpenSSH** and **Cydia** installed

## Step 1

Enter your account details (e-mail and password) into iDFS and press «**Login**». Wait until your account data will be synchronized.

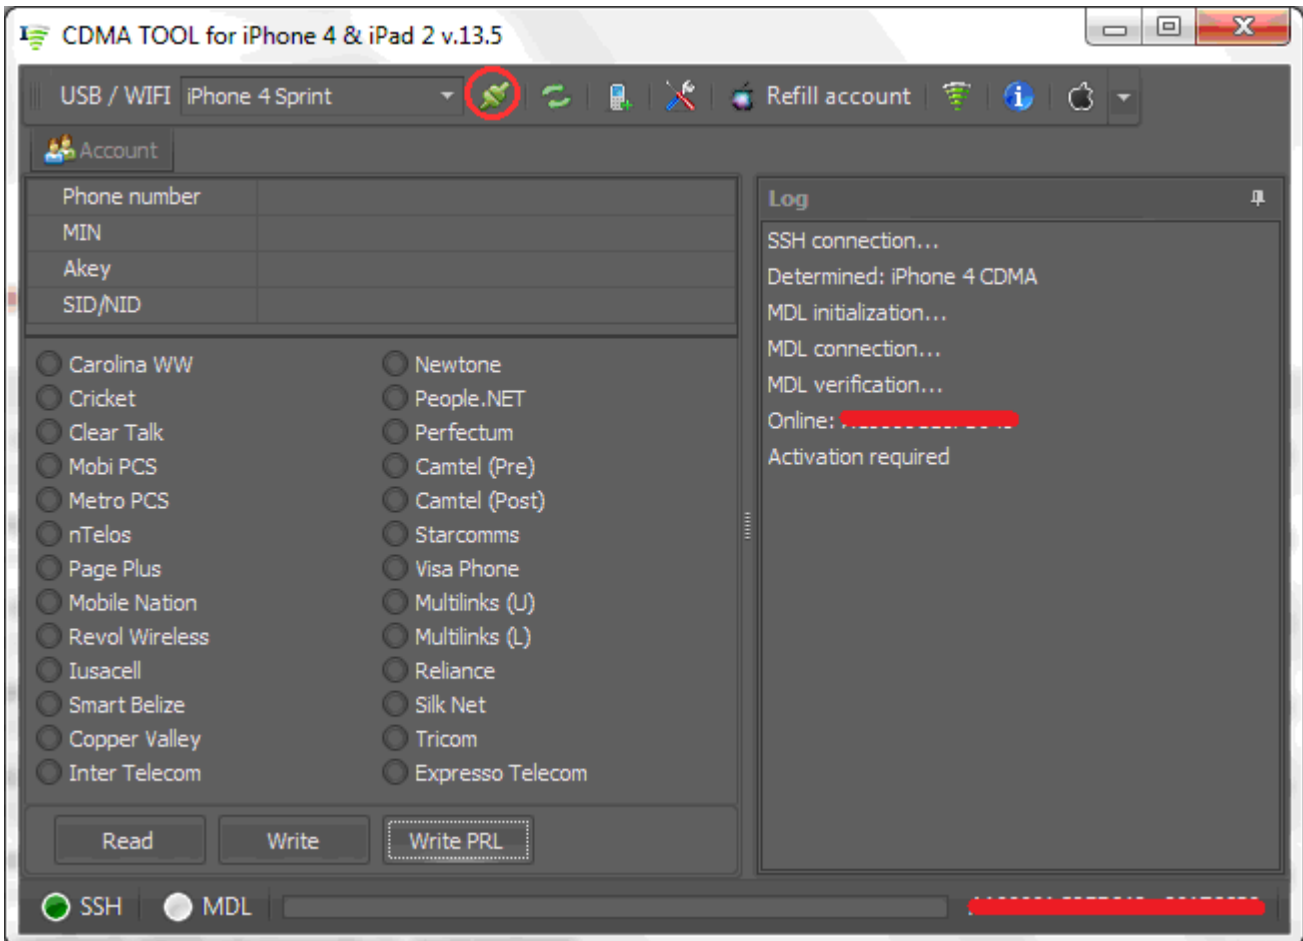

## Step 2

Connect your device via USB. Device automatically will be recognized by iDFS.

To connect, click on the icon "Connect\Disconnect"

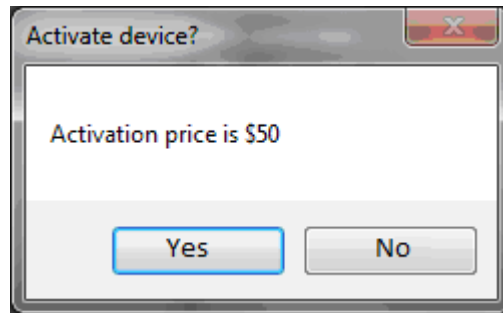

Activate your Apple MEID by pressing «**Activate**» button.

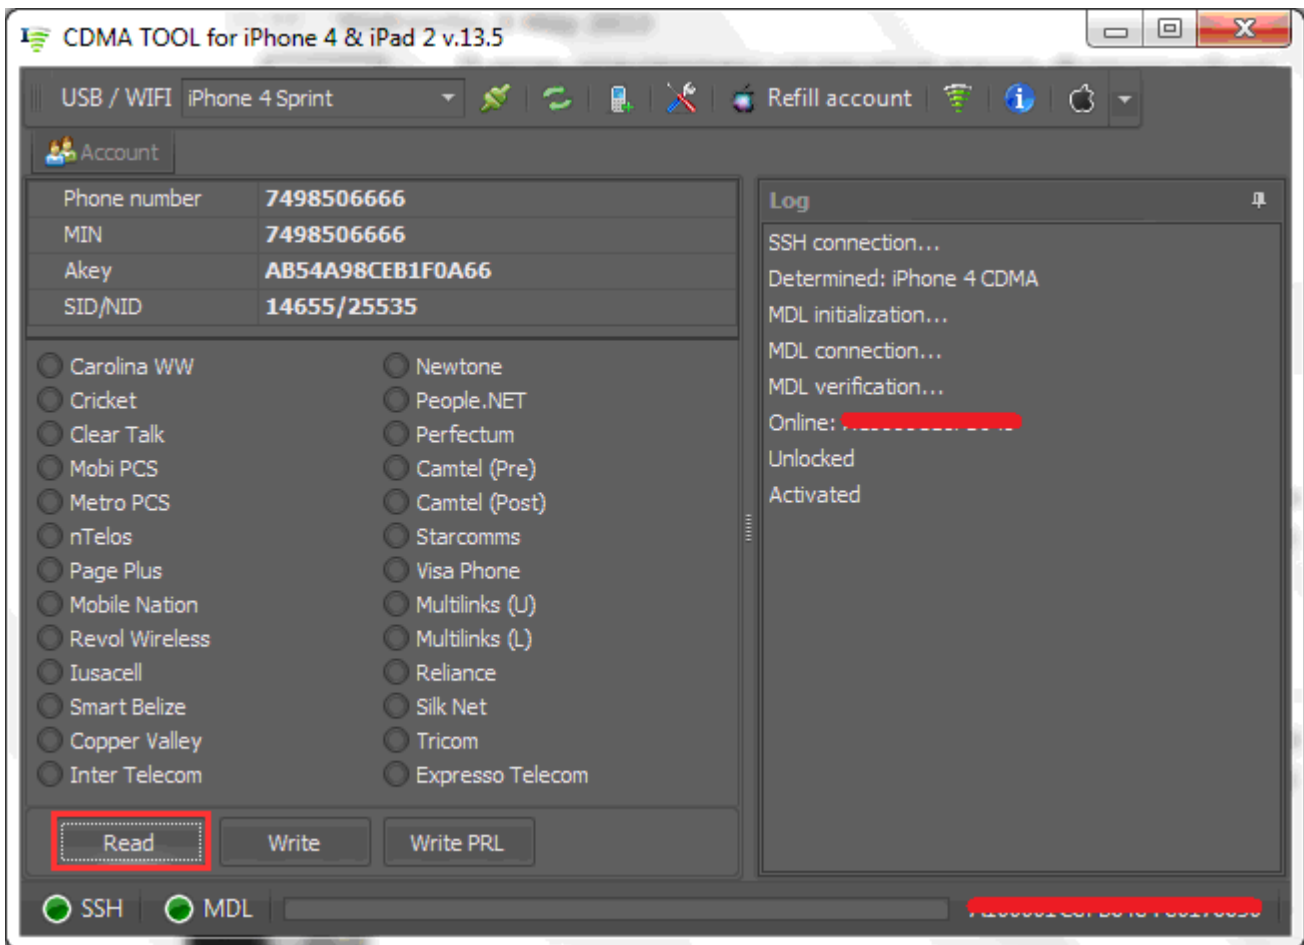

## iDFS CDMA flashing Cricket Wireless

Confirm:

After activation iDFS will read and write all data from your device.

## Step 3: Flashing Cricket Wireless

### Flash PRL to Cricket Wireless

Click «Write PRL» and select your Cricket Wireless PRL:

PRL write: Ok

PRL write complete
