

iDFS CDMA flashing MobiPCS

Powered by Telecom Logic group

iDFS CDMA Professional CDMA Software for Apple devices

iDFS Tool flash MobiPCS

Flash the iPhone 4\iPad 2 carrier MobiPCS is easy!

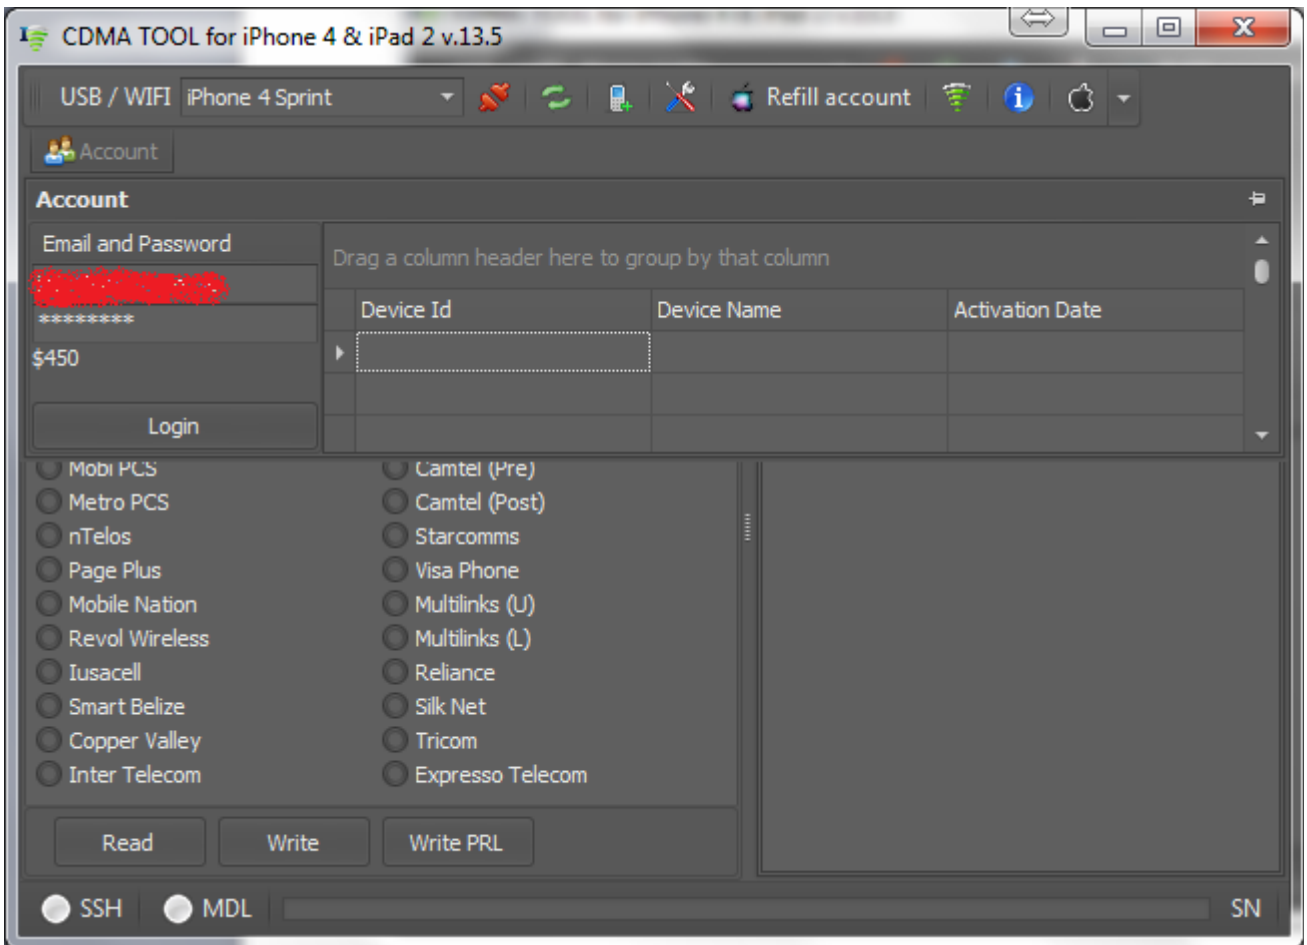

What do you need to have before flashing:

1. iPhone 4 CDMA or iPad 2 CDMA
2. Original Apple USB cable
3. **iTunes** installed
4. Device has to be **JailBroken**
5. **OpenSSH** and **Cydia** installed

Step 1

Enter your account details (e-mail and password) into iDFS and press «**Login**». Wait until your account data will be synchronized.

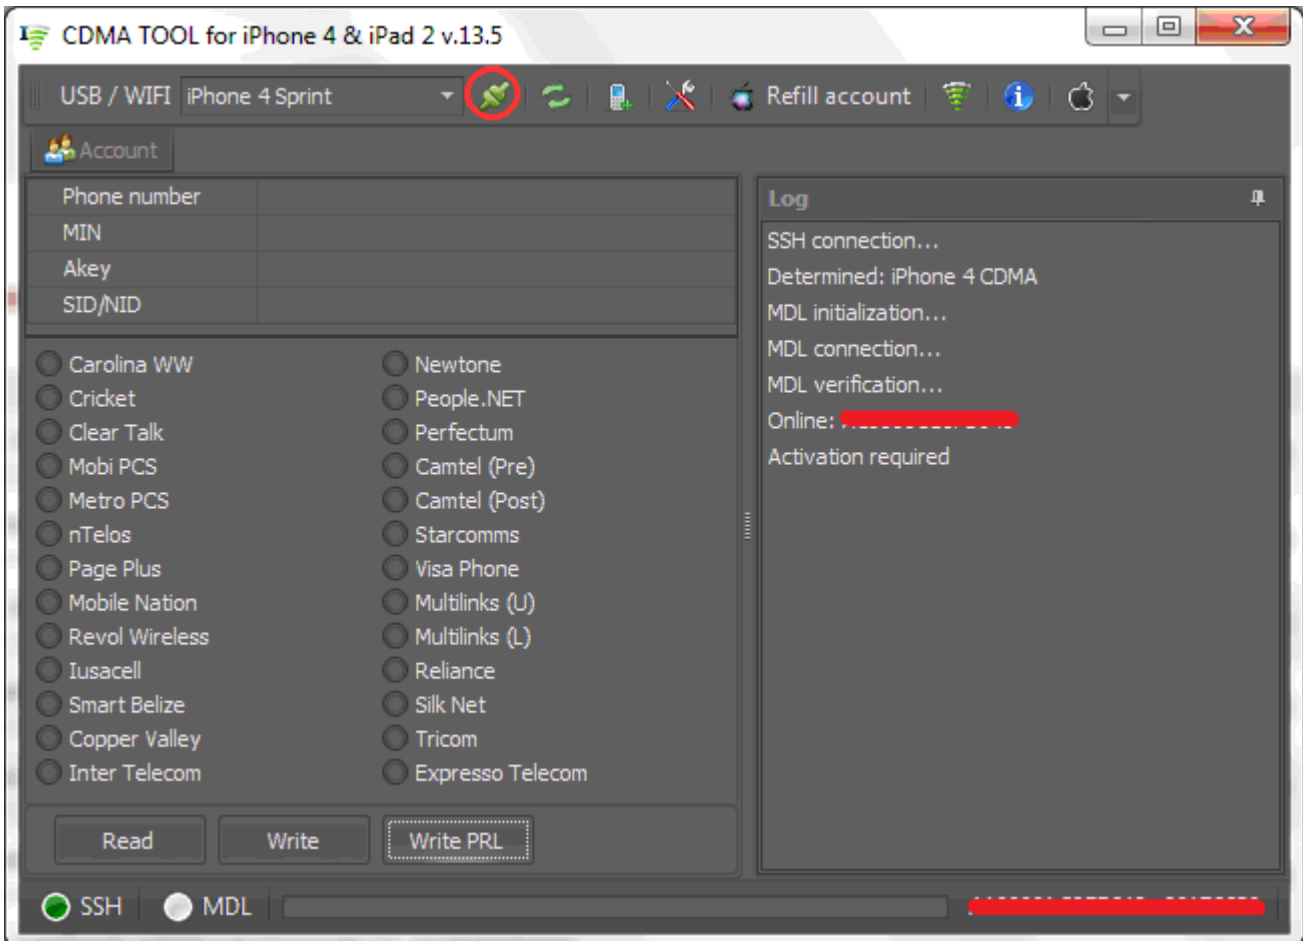

Step 2

Connect your device via USB. Device automatically will be recognized by iDFS.

To connect, click on the icon "Connect\Disconnect"

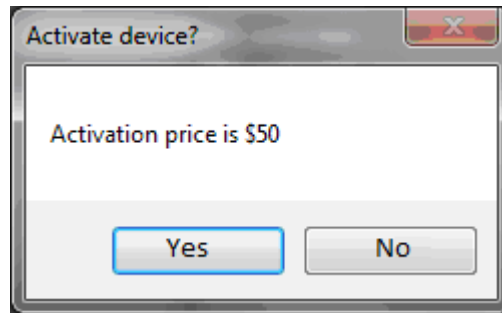

Activate your Apple MEID by pressing «**Activate**» button.

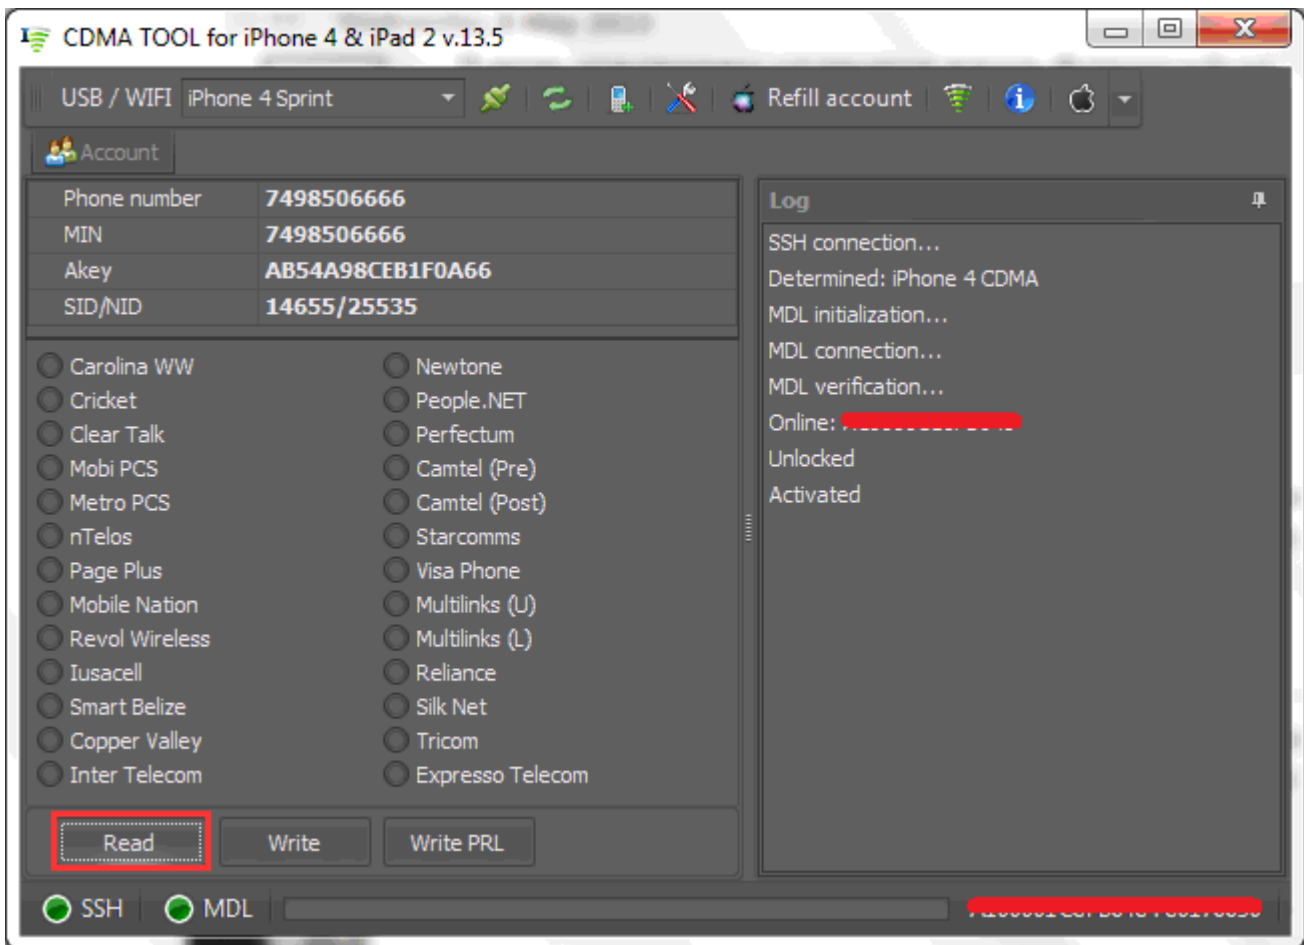

iDFS CDMA flashing MobiPCS
